Analyst (multiple roles, Yemen, regional)

Job Description and Requirements

The Norwegian Refugee Council (NRC) is an independent humanitarian organisation helping people forced to flee.

**We protect displaced people and support them as they build a new future.** We started our relief efforts after World War Two. Today, we work in both new and protracted crises across more than 30 countries. We specialise in six areas: food security, education, shelter, legal assistance, camp management, and water, sanitation and hygiene.

**We stand up for people forced to flee.** NRC is a determined advocate for displaced people. We promote and defend displaced people's rights and dignity in local communities, with national governments and in the international arena. NRC’s Internal Displacement Monitoring Centre in Geneva is a global leader in monitoring, reporting on and advocating for people displaced within their own country.

**We respond quickly to emergencies.** Our expert deployment capacity, NORCAP, boasts around 1,000 experts from all over the world who can be deployed within 72 hours. Our experts help improve international and local ability to prevent, prepare for, respond to and recover from crises.

**Around 6,000 men and women work for the Norwegian Refugee Council.** Most of us are hired locally to work in the field, and a small number are based at our head office in Oslo. Many of our colleagues were once themselves fleeing their homes.

**ACAPS Purpose**

ACAPS is dedicated to improving analysis of humanitarian needs in complex emergencies and crises. We are independent of specific operational and sectoral agendas or interests, and therefore guarantee objective and evidence-based analysis. Our team supports the humanitarian community by providing up-to-date information on key crises around the globe. By bringing together different sources of secondary (and where appropriate primary) data and using robust methodologies, we move beyond descriptive analysis to explanatory and interpretive analysis: in other words, we enable data to tell us: so what? This enables crisis responders to better understand and thereby better address the needs of the affected population, and at the same time strengthening the assessment ecosystem.

We have a dedicated team of analysts, supported by technical experts in secondary data analysis, needs assessment, scenario building, risk, and analysis capacity building ready to provide:

- Thematic analysis to build a better understanding of context and needs;
- Forward-looking analysis, including scenario building;
- Local analytical capacity building through technical support and training;
- Support to local actors with data management and analysis.
Positions

ACAPS is looking for Analysts to fill multiple country-specific and regional roles. The Analyst will work in the ACAPS team.

They will be a key part of the delivery of different regular analysis products which will be released by ACAPS. ACAPS is a service provider to a fast paced and constantly changing humanitarian response. The post-holder will have to be a flexible and creative analyst, focused on delivering the right information required for decision-makers.

Competencies

- Education to postgraduate level in social sciences or another relevant subject
- At least 1 year of relevant experience in the humanitarian sector
- Understanding of different quantitative and qualitative research methods
- Solid understanding of humanitarian principles
- Experience working in fast-paced, cross-cultural teams, including working with colleagues in remote settings
- Excellent time management skills and ability to organize multiple, simultaneous tasks, and deliver results within a specified period
- Ability to understand complex concepts and synthetize information

This position is only open to Jordanian applicants. We welcome applications from qualified and interested candidates. Candidates are encouraged to apply early, as applications may be screened prior to the vacancy deadline.

Salary/benefits: According to NRC’s salary scale and terms and conditions

Duty station: Amman, Jordan with occasional travel to Yemen, as needed

How to apply

Interested candidates should apply through the Akhtuboot platform.
The closing date for this position is 25 August 2020.
